IMPACT OF FTAS

3000(H). SHRI NANA PATOLE:

Will the Minister of **COMMERCE & INDUSTRY** (वाणिज्य एवं उद्योग मंत्री ) be pleased to state:

- (a) whether the Free Trade Agreements (FTA) with other countries have not been able to increase the country's exports;
- (b) if so, the details thereof and the reasons therefor;
- (c) whether certain industrial organizations have expressed their concern over the rising imports in the country and the present nature of FTAs and if so, the details thereof ;
- (d) whether the Government is formulating any outline to implement the suggestions by these industrial organizations to promote and encourage the domestic industries and if so, the details thereof; and
- (e) the details of the concerns that have emerged in the country relating to increased competition to domestic industries and impact of the Trans-Pacific Partnership (TPP)?

ANSWER

वाणिज्य एवं उद्योग राज्य मंत्री (श्रीमती निर्मला सीतारमण) (स्वतंत्र प्रभार)

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE AND INDUSTRY  
(INDEPENDENT CHARGE)  
(SMT. NIRMALA SITHARAMAN)

(a) & (b): India's exports are contingent on many factors such as global economic situation, availability of cheaper raw materials and intermediates, competitiveness of domestic industry, tariffs, standards, market access through India's free trade agreements (FTAs) etc. Independent studies indicate that there has been an increase in the share of India's exports of intermediate and capital goods after implementation of FTAs.

(c) & (d) Indian industry is divided in their opinion on the impact of FTAs on our trade. However, the trade data with FTA partners, prior to and after implementation of the agreement, indicates that there has been an increase in our overall trade. Moreover, the share of imports of raw materials and intermediates has increased from FTA partners which could be attributed to value added domestic production. Government undertakes internal studies as well as through the Joint Study Group (JSG) on the feasibility of proposed FTAs. Besides, consultations are also held with Apex Chambers of Commerce & Industry, line Ministries/ Departments on specific sectors and, based on the inputs received, sensitive items are not offered under FTA. Further, in case of a surge in imports and injury to domestic industry, a country is allowed to take recourse to trade remedial measures such as anti-dumping and safeguards.

(e) Although, negotiations of the Trans-Pacific Partnership (TPP) have been concluded, the agreement is yet to be ratified for implementation by participating countries. Government is regularly monitoring developments with regard to the possible impact of Trans-Pacific Partnership (TPP) on domestic industry in close consultation with industry stakeholders.

TEA PRODUCTION IN ASSAM

**3015. SHRI BADRUDDIN AJMAL:**

Will the Minister of **COMMERCE & INDUSTRY** (वाणिज्य एवं उद्योग मंत्री ) be pleased to state:

- (a) whether it is true that more than half of the country's tea production comes from Assam;
- (b) if so, the details thereof;
- (c) whether the longer dry periods and change in rainfall pattern in North East have increased tea production cost; and
- (d) if so, the steps taken by the Government to provide assistance to tea farmers and to balance the international market price with Indian Tea Traders?

**ANSWER**

वाणिज्य एवं उद्योग राज्य मंत्री (श्रीमती निर्मला सीतारमण) (स्वतंत्र प्रभार)

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE AND INDUSTRY  
(INDEPENDENT CHARGE)  
(SMT. NIRMALA SITHARAMAN)

(a)& (b): Yes, Madam. During the year 2015-16, the tea production in Assam was 652.95 M.Kgs. which accounted for fifty-three per cent of the total production of 1233.14 M.Kgs in the country. Similarly, during the current year (April-September, 2016), Assam produced 432.43 M.Kgs. of tea which accounted for fifty-four percent of the total production of 795.89M.Kgs. so far.

(c)& (d): The tea industry is facing problems due to climate change resulting in erratic distribution of rainfall with extended periods of droughts followed by heavy rainfall. Irrigation has become imperative and pest and disease incidence is on the rise. This has become a challenge in tea production in Assam. Accordingly, the tea garden owners have to incur higher costs for irrigation and pest/disease control.

In order to help the growers to mitigate the increased cost, Tea Board under the Tea Development & Promotion Scheme is providing financial assistance for creation of Irrigation facilities. Financial assistance of Rs. 6.25 Crores during the year 2015-16 for an area of 10,954.19 ha and Rs. 2.52 crores during 2016-17 (till October 2016) for an area of 3,359.00 ha has been extended to North East. Moreover, other schemes including replanting and rejuvenation pruning for replenishment of old and uneconomic tea areas are being implemented by the Tea Board.

In order to help the Indian Tea Traders maintain the supply-demand equilibrium and earn remunerative price for the stakeholders of the Tea Industry, the government has added thrust for increasing exports volume, doubling unit price realization, augmenting export of value-added teas and reinforcing “Brand India” Image in the overseas markets.

- (a) to (c): Import of an item takes place only when similar item is either not available in the domestic market or is available at a cheaper rate outside the country than the one available in the domestic market. Excess capacity overseas and downward pressure on international prices in light of the global slowdown has led to enhanced competitive pressure on domestic producers from foreign suppliers in some sectors.

Indian industry, if affected by such imports, can seek remedies for invoking trade defence measures like imposition of anti-dumping duty, countervailing duty and safeguard duty.

- (a) to (f) : Import of “Fireworks” covered under Indian Trade (Harmonized System) classification [ITC(HS)] code 36041000 is ‘restricted’ and no one can import fireworks without a license/authorization from the Directorate General of Foreign Trade (DGFT). For last three years no license /authorization have been issued by DGFT. India has no trading agreements for import of firecrackers from China. Further, as per available data, no import of “fireworks” has taken place from China or any other country during the last three years and the current year (up to September 2016). However there have been cases of illegal imports of fireworks.

The Customs Authorities and the Directorate of Revenue Intelligence (DRI) have made several seizures of illegally imported foreign origin firecrackers based on specific intelligence in places like Mundra; ICD, Dadri; Nhava Sheva; ICD, Loni; ICD, Tughlakabad; Raigad and Sangrur. Further, to curb the menace of illegal import and smuggling of these foreign made

firecrackers, DRI has issued alert/ *modus operandi* circulars to sensitize the Customs field formations and also the Chief Secretaries and the Director Generals of Police of various State Governments on the issue.

Petroleum & Explosives Safety Organization (PESO), under the Explosives Rules, through its field offices, has been taking action on seized fireworks including destroying them. Special drive is also undertaken by PESO during festival periods to ensure no foreign origin fireworks are stored or sold.

Government has also been issuing press notices in English, Hindi and vernacular languages in National and Regional papers on a regular basis during the festive season, for the past few years, informing the public that possession and sale of fireworks of foreign origin in India is illegal and punishable under the law and that information about possession and/ or sale of such fireworks may be reported to the nearest police station for suitable action.

The sale of fireworks is regulated by the Explosives Rules, 2008 framed under the Explosives Act, 1884 and a license is required for possession and sale of fireworks.

- (a) Yes, Madam.
- (b) The European Union had placed an import restriction on five fruits and vegetables species from India viz. Mangifera (Mango), Momordica (Bitter gourd), Trichosanthes (Snake gourd), Solanum melongena (egg plant) and Colocasia leaves (taro) with effect from May, 2014.

This step was taken due to interceptions of export consignment originating from India that were not compliant with EU Phytosanitary regulations.

As a result of efforts made by the Indian Government, EU lifted ban on import of Indian mangoes in February, 2015. EU has now recognized India's efforts for effective plant health control system with improved level of compliance for consignment of fresh fruits and vegetables exported to EU and has decided not to prolong the ban imposed on the import of four vegetables (Bitter gourd, snake gourd, brinjal and colocasia) beyond 31.12.2016.

- (c) It is not feasible to quantify the losses suffered by the farmers due to such bans as alternative avenues for marketing of the produce, both domestic and international, are always available.
- (d) The Government is not contemplating any new agricultural export policy at this stage.
- (e) Does not arise in view of (d) above.

- (e) the quantity of rubber produced in India during the last three years and the current year, State-wise?

**ANSWER**

वाणिज्य एवं उद्योग राज्य मंत्री (श्रीमती निर्मला सीतारमण) (स्वतंत्र प्रभार)

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE AND INDUSTRY

(SMT. NIRMALA SITHARAMAN)

- (a) to (d) Prices of Natural Rubber (NR) has shown a decreasing trend during the last three years and a slight increase is seen in the current year in Indian and international markets. Average annual prices of RSS 4 grade rubber in India and that of comparable grade RSS 3 in Bangkok market are as under:

|                    | Sheet rubber (Rs./kg)        |                                  |
|--------------------|------------------------------|----------------------------------|
|                    | Domestic<br>(RSS 4 Kottayam) | International<br>(RSS 3 Bangkok) |
| 2013-14            | 166.02                       | 155.25                           |
| 2014-15            | 132.57                       | 112.71                           |
| 2015-16            | 113.06                       | 96.36                            |
| April-October 2016 | 130.53                       | 111.95                           |

Fall in price of the Natural Rubber (NR) is attributable, inter alia, to trends in economic growth, production in major NR producing countries and demand in major consuming countries. Domestic NR prices generally follow the trends in the International market. Natural Rubber being a commercial crop is not considered for minimum price support.

- (e) State wise production of Natural Rubber in India during 2013-14 to 2015-16 is as under:

(Production in Tonne)

| State      | 2013-14 | 2014-15 | 2015-16(p) |
